AAC 'J' ITEM NSN 6515-01-327-6798

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901

UNIT PRICE: \$919.04

System Description: Produces from 1/2 to 5 liters per minute of therapeutic oxygen, purity levels of up to 95.5%. Large, easy-to-read flow meter with back-lines for accurate flow settings. Built-in handles make it easy to move or lift. Large casters glide easily over virtually any flooring surface. Uses a long-life Thomas Nexus compressor designed to provide over 20,000 hours of use without servicing. Safety features include high and low pressure alarms, a loss-of-power alarm, and an optional oxygen purity alarm. On properly equipped units, the purity alarm constantly monitors the oxygen purity, ensuring it remains in the therapeutic range. Also includes a high-temperature shut-off switch outside the compressor, guarding against overheating.
